

Gas Springs State Forest.

2,263 acre forest gets its name from the Natural Gas Springs that occur throughout the area, with wells shown as "AL 10" on this map. Much of the area is former farm land reforested in 1930s.

Map created by Andy Arthur on 10/24/2024 in QGIS 3.34.11-Prizren. Contains US Forest Service Base Map with DEC Data. More maps at andyarthur.org.
