# Dunham Reservoir

Grafton Lakes State Park - WMU 4L

Dunham Reservoir is a 100-acre reservoir that is south of the main portion of **Grafton Lakes State Park**. Good fishing and paddling, with an interesting shoreline to explore, with designated trails running around the lake. **No fee for this area!** The closest shoreline launch is from Johnson Road, but there is also a parking lot on Dunham Reservoir Road, with a short gated road you can portage from too.
